SATOSHI PANDA

WHITEPAPER

SATOSHIPANDA.IO

01 INTRODUCTION

Launched in February 2024, Satoshi Panda is a wholesome meme culture project that is true believer in the opportunities and revolution Satoshi Nakamoto started when he launched Bitcoin.

Satoshi Panda's mission is do its part in the mass education and adoption of cryptocurrency worldwide in an entertaining way, because nothing is more important that people being financially sovereign.

Satoshi Panda is a unique project initially launched on BNB Chain given its on-chain volume, fast & low fees, and plentiful Bitcoin (BTCB).

The defining difference between Satoshi Panda and other meme coins is that it rewards Bitcoin to its SAP token holders and has its own gamified 7,777 NFT collection, along with a robust development vision.

The rewarding of Bitcoin demonstrates our serious dedication to doing our part in banking the unbanked and spurring greater adoption of the world's largest and most trusted cryptocurrency.

DISCLAIMER

Satoshi Panda, including but not limited to the overall project, token, website, smart contracts and any apps ("SATOSHI PANDA") as presented in this conceptual paper is not a licensed, unlicensed or exempted financial or payment service of any kind and in any jurisdiction. Any terminology used in this Whitepaper, on the Website or within the app is intended only as a basic reference, without any effective or legal meaning of the same terms in a regulated and/or financial environment. SATOSHI PANDA is a community-driven project and does not have owners, shareholders, promoters, marketers, managers, directors, or other figures or entities exerting any form of governance. The SATOSHI PANDA smart contracts are open-source and permanent. The SATOSHI PANDA token is strictly a utility token in all jurisdictions and is not and cannot be considered to be a "security" or otherwise regulated token of any kind. SATOSHI PANDA is not in any way e-money and/or fiat money, or an asset backed stablecoin, whether global or limited in scope. This Whitepaper taken by itself is not a contract or a contractual agreement of any kind, nor is it an invitation, solicitation or offer to invest in SATOSHI PANDA or acquire or use SATOSHI PANDA tokens in any way and with any expectation of profit therefrom. Any user of SATOSHI PANDA represents and warrants that such user has received appropriate technical, administrative, regulatory and legal advice before and after accessing and/or reading this Whitepaper or the Website, and/or using any portion or element of SATOSHI PANDA (including the SATOSHI PANDA token). The user hereby acknowledges and accepts that there is an inherent high risk in accessing, acquiring or using any kind of blockchain and/or cryptocurrency system, token, platform, software or interface, including SATOSHI PANDA, and further disavows any claim of any kind against any community member directly or indirectly involved with SATOSHI PANDA, for any damage suffered, including total loss. SATOSHI PANDA may provide a credit card interface available on its website solely for the users' convenience.

02 VALUES

Satoshi Panda is a wholesome and fun meme culture project and NFT collection that also helps people become a part of the Bitcoin and cryptocurrency revolution through rewarded support, as well as being on a mission to protect the few thousand red pandas still in existence. Satoshi Panda will continue to expand as it grows and matures, all while staying true to it guiding principles and ethos.

Trust & Transparency

In the cryptocurrency space, trust needs to be earned. We place great importance on our project becoming a model for other meme projects to emulate. This is why we have taken steps to demonstrate we are a trustworthy long-term project, such as locking liquidity for 2 years, having our smart contract audited by a third party, and actively and openly communicating with our community.

Financial Sovereignty

Satoshi Nakamoto launched BTC at the height of a major financial crisis because he saw the flaws of TradFi. The flaws are more obvious than ever, making it high time to get on the crypto train to financial freedom.

Without Bitcoin, there would be no Ethereum, no Dogecoin, no BNB...nothing! This is why we are ensuring the original guiding principle of crypto continues to guide it as the stability of the traditional centralized financial system becoming increasingly shaky.

Wholesome Community

We pride ourselves in being a community that can have fun without being disrespectful to one another. The more memes, the merrier! If you see crypto's revolutionary power, love cute red pandas & don't take things too seriously, you've found the right project! Join our community on Discord and follow us on Twitter as well, and join us on Telegram.

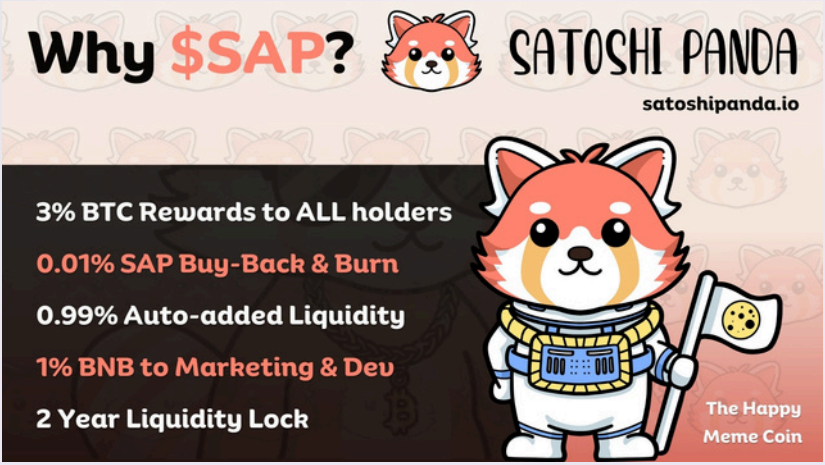
03 NATIVE TOKEN

Satoshi Panda's native token SAP is initially launched on BNB Chain, an L1 EVM blockchain that has proven itself to be an incredibly fast and affordable smart contracts platform to call home. In the future, SAP may be followed by potential expansions to one or two other select chains once certain adoption thresholds are met. SAP is paired with BNB on BNB Chain using what is raises during its presale on PinkSale. For more details on tokenomics, please refer to our Tokenomics section.

Liquidity is fully locked for 2 years.

With just 21,000,000,000 tokens, there is enough for meme appeal while not having so many zeroes that it becomes painful to figure out how much someone has. SAP being hardcapped at 21B tokens is also a nod to Bitcoin's hardcap of 21M tokens.

Additionally, thanks to the BuyBack & Burn mechanism integrated into the smart contract, SAP is deflationary, which results in less SAP in existence over time.



04 ECOSYSTEM

Community-Centric

Satoshi Panda is a high-vibed project focused on being community-centric. Anyone who believes in the crypto revolution Satoshi Nakamoto started and likes cute red pandas is welcome!

Together, we can expand Satoshi's vision through the power of memeing while simultaneously saving the few thousand red pandas left from extinction.

Rewarding Ecosystem

We strongly believe in the spirit of giving and that when you give you receive.

This is why whenever there is a transaction with our native token, 3% goes to SAP holders as Bitcoin in the form of BTCB.

Future rewarding mechanisms will be introduced, including an NFT Staking program distributing SAP rewards that also then rewards BTCB to staked NFTs.

Locked LP, Buyback & Burn & Autoadded Liquidity

All initial liquidity for SAP is locked for two years.

Additionally, 0.99% of every transaction fee becomes autoadded to our SAP/BNB liquidity pool on Pancakeswap and 0.01% goes towards SAP buyback & burn to support SAP's value while decreasing the supply.

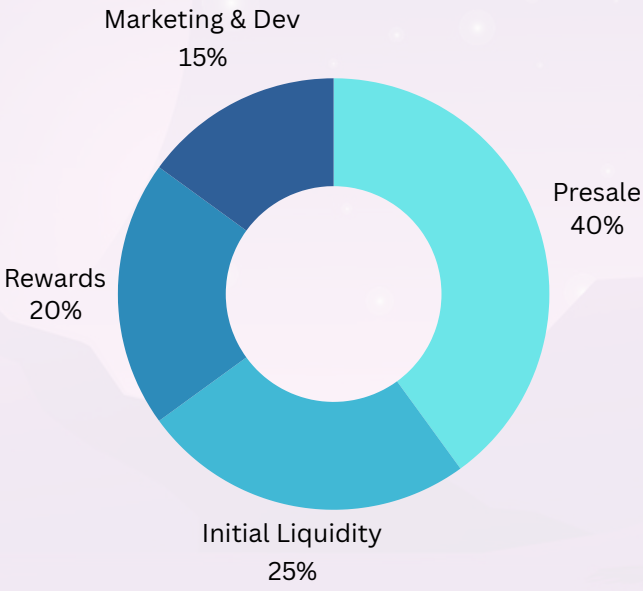
1% goes to the Marketing & Development Treasury as BNB. The Satoshi Panda treasury is held by a multisig that requires at least 3 people to sign every transaction before it can be executed.

05 TOKENOMICS

TOKEN NAME	TOKEN SYMBOL	DECIMALS
Satoshi Panda	SAP	9

BLOCKCHAIN	TOTAL SUPPLY	MAX SUPPLY
BNB Chain	21,000,000,000	21,000,000,000

Token Distribution



Contract Address:
0xF251D85089875877595869 1Df66895d0b5F837AD

Recommended Slippage Tolerance Setting: 5.5-6%

06 REFLECTIONS

Satoshi Panda's native token has a smart contract that distributes reflections in four directions:

In every buy or sell trade of SAP, the transaction is charged a 5% fee.

Total Reflections: 5%

1% — 1% goes to the Marketing & Development Treasury as BNB to keep growing the project & developing more value-adds.

3% — 2% goes to SAP holders as Bitcoin on BNB (BTCB) as a reward for holding SAP and supporting the project.

0.99% — 0.99% Liquidity Fee: Half gets converted into BNB on BNB Chain and paired with the other half (SAP) to autoadd to the liquidity pools to keep liquidity growing forever.

0.01% — 0.01% Buyback Fee: 0.01% of BNB from every transaction is used to buy back SAP tokens. BNB is stored in a special contract and called to buy back SAP & burning it, supporting its value.

07 WHY $SAP

We're different than other memecoins.

We've meticulously crafted our tokenomics to ensure we have completely sustainable and all-around rewarding mechanisms in place that support our long-term success.

Join the Satoshi Panda family! The Bitcoin rewards are just the start.

08 BITCOIN REWARDS

Thanks for a 3% tax going towards Bitcoin (as BTCB on BNB Chain) to all holders of at least 1 SAP at a minimum of 1 hour between distributions, the more SAP trading volume there is, the more Bitcoin distributed.

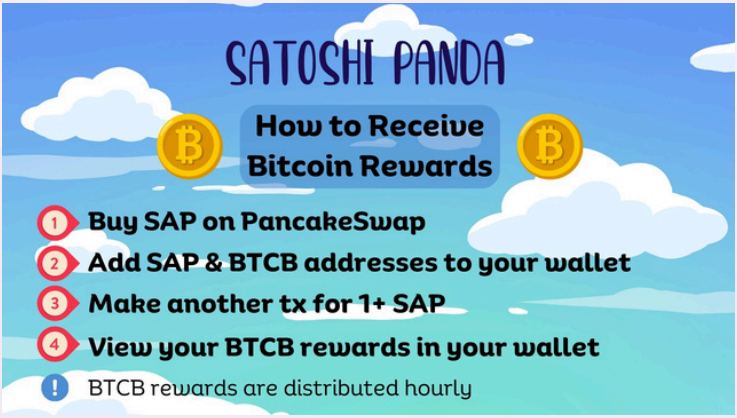
To determine the amount of BTCB distributed daily in total to SAP holders, take the total daily DEX volume and multiply it by 3%.

BTCB rewards accrue in the holding contract:

0x05EC675bDAE0Af0553F605b15dFeC9050Fab6B8F

BTCB Address: 0x7130d2A12B9BCbFAe4f2634d864A1Ee1Ce3Ead9c

Note: The SAP contract is optimized for gas, hence a trigger transaction (buy, sell, or transfer) necessary for distributing accrued BTCB.



09 NFT COLLECTION

We have an ongoing mint for our 7,777 NFT collection.

Prepare for SAP staking rewards, gamification, and more!

Now that our 7,777 NFT collection is released, we'll also launch our NFT Staking program that'll be the main vehicle for earning $SAP rewards!

After NFT Staking, we expand the utility of our NFTs to be more than PFPs that earn $SAP (and BTCB as a result) but also are gamified.

We've got a lot of fun, rewarding, and engaging releases planned, so be sure to join us as we prepare for our long-term future!

10 MUSIC LABEL

We’re starting our own tokenized future bass & synthwave music label!

Our intention is to amplify high-vibed artists & give $SAP some really fun utility.

We will provide more details at a later date but will begin establishing the groundwork for Satoshi Panda Records.

11 VISION

Satoshi Panda will continue to grow, expand, and evolve over time.

We're more than just a meme coin. We're a culture project with purpose!

PHASE 1	PHASE 2	PHASE 3	PHASE 4
Build and Grow the Satoshi Panda Community	SAP/BNB LP Launched & Liquidity Added	Satoshi Panda 7,777 NFT Collection Released	Red Panda Preservation Initiatives
Smart Contract Created	CG & CMC Listings	NFT Staking Launched	DEX Launched
Smart Contract Audited	KOL Partnerships	CEX Listings	Tokenized Future Bass Record Label
Presale on Pinksale	Marketing Partnerships & Campaigns	NFT Gamification	Learn-to-Earn Web3 Education Platform

THANK YOU!
